

GETTING READY
FOR OLYMPIC MEETOne to Be Held at London Ex-
pected to Excel All
Others.

SWEDES SHOULD DO WELL.

America Will Send a Big Delegation of
Athletes to Make Contestants His-
tle—London Preparing.

A New York dispatch: Though the London Olympic games are fully nine months off the stadium at Shepherd's Bush is nearly complete and most of the important arrangements as to teams and other matters are perfected.

As regards the handling of athletes on a large scale an innovation will be introduced in the dressing room accommodations. Each team will have a room to itself. Something new is promised, too, in the arrangement of the events for each day, and there will be no blunder as at Athens, when men came on the ground day after day and their contests were indefinitely put off.

There will be no clerk of the course, so the story goes, and it will rest with the man himself to look out for his particular contest. The events will have a time schedule on the program and those with trial heats will be similarly arranged, so if a competitor is not there to answer to his name the competition will proceed without him.

Some new rules will be in force. In the high jump a man will have to land plumb on his feet and he will have to keep his pins after alighting. Falling on all fours, as a majority of contestants do, will be deemed a foul. Putting the shot, or, as the Englishmen call it, the "weight," is another event where strange conditions will appear. Heretofore in England the contestants in executing his preparatory movement, was allowed to rest the missile against his neck, on his shoulder, and oftentimes he was permitted to start the "put" from behind the shoulder blade.

Any of these conditions will be barred in the Olympic games. The putter will be required to keep the weight on the chest, and the slightest deviation from the rule will earn him a foul. Furthermore, it is proposed to improve the method of the arm movement. For a number of years, at the English meets, it was a common occurrence to see men give the "weight" a "bang," that is, those who had exceptional strength of arm used it to help the swing of the shoulder in driving the weight away.

As a rule these men who banged the shot held it far back toward the shoulder blade, and as they jumped forward the arm was swung from the elbow much the same as a woman throwing a baseball. The new conditions stipulate that the arm shall be shot straight out from the body and the implement "pushed" fairly in front.

The rules governing the hammer throw will be somewhat different from those in vogue in America. Instead of the bifurcated loop used here on the end of the handle there will be a straight grip that is a wooden spool. The handle proper will be different. Instead of the piano wire it will be a steel rod. These things, taken collectively, will not be so conducive to big throws.

That the games will excel anything yet seen on earth in that line there is now every indication, for from the entries assured the list should reach somewhere about 2,000. Sweden alone has notified the committee that she will send 75 men.

SWEDES ARE DANGEROUS.

The Swedes proved dangerous foes to the Americans at Athens. In the scramble for point honors they came third, with 25½ points, and incidentally won some of the most classic events of the meet. The pentathlon, or all-around championship, went to Sweden, Mellander being the winner, with a very fine performance in each event. As experts in the javelin, the Swedes were in a class by themselves.

Other countries will have strong representations, notably France, Austria, Greece and Germany. Even such an out-of-the-way place as the Argentine republic will send a team.

In the prize department there will be some innovations. There is to be a

San Francisco

point trophy to be awarded to the nation securing the most events. The exact conditions governing this prize have not been determined. It may take the form of a gold medal, a silver cup, or a silver vase, or be confined to the stadium events alone.

The prize is a bronze statuette of Pallas Athena. It was presented by Countess Eugenie Brunetti d'Assenza. Another beautiful prize has been presented by Mme. G. De Montigny for the throwing of the discus, Greek style. It is in the shape of a challenge cup, the winner will be held by the winner until the Olympiad of 1912.

But by far the most valuable and artistic prize yet presented to the committee is the International fencing challenge cup, a gift from British welders of the foil. It is a counterpart of the famous Porthos vase, which now occupies a prominent place in the bronze rooms of the British museum. The vase is a pure specimen of Ionic Greek decorative art.

Lord Desborough of Taplow, a great sportsman himself, is chairman of the Olympic committee and is shouldering most of the work. He is getting fine help from the Rev. S. De Courcy Laffan, who in turn has an able assistant in Captain F. Whitworth Jones.

FRANK MANTELL CLAIMS
WELTER CHAMPIONSHIP.

Frank Mantell, the local boxer who put up such a clever fight against Rube Smith of Denver at Ogden last summer, and who recently knocked out Honey (Billy) Melody, the former welterweight champion of the world, now lays claim to the title. While Mantell is not the welterweight champion, he is pretty close to the title and stands a good chance of landing it. But before his claim will be taken seriously he must reckon with such men as Jimmy Gardner, Young Ketchell and Joe Thomas. Thomas beat Melody for the title, and Young Ketchell of Butte defeated Thomas. Mantell is willing to give Melody another fight but will insist that the weight be 142 pounds ring-side.

Mantell, like Pete Sullivan, has had a difficult time in convincing fight fans that he can fight. Mantell's work against the clever Rube Smith was a revelation to local ring "dopesters." Sullivan also proved a surprise against Thompson.

INDOOR BASEBALL.

An indoor baseball game was played last evening at the Y. M. C. A. between teams representing the East Side Baptists and the West Side Baptists at teams. The last named team won by a score of 15 to 14. The teams lined up as follows:

East Side Baptists. Phillips Cos. Gaumer.....P..... Hicks (Capt.) Tate.....P..... Price Goddard.....J.B..... O. Sweeten Kopp.....J.B..... Chandler Goddard.....J.B..... Greaves Yeomans (Capt.) L.S..... Denis Ernst.....L.F..... McDonald Lwin.....L.F..... Mercer N. Tittle.....R.F..... C. Sweeten

RECORDS ALLOWED AT
A. A. UNIVERSITY.

Decides on Status that Colleges are to Hold in Future.

New York, Nov. 18.—After a long discussion at its annual meeting today the Amateur Athletic union finally decided on the status that college athletes are to hold in amateur athletics in the future.

By the resolution which was finally passed it is decided that college athletes may only register with the union from

two places—their colleges and the homes of their parents or guardians. An attempt was made to confine college athletes to their colleges, but the delegates believing that this change was altogether too drastic, the resolution was amended to include their homes.

James E. Sullivan was unanimously re-elected president of the union and John J. Dixon was continued in the position of secretary and treasurer. John J. O'Connor, H. G. Pennington, Dr. George Orton and Everett C. Brown were elected vice presidents.

President Sullivan in his annual address favored dealing with college athletes in a liberal spirit.

Athletics championships at exhibitions were commended by the president, and he particularly recommended favorable action on the proposition of the Pacific northwest division, advanced by Delegate A. A. Goldsmith, in relation to sports at the Yukon-Alaska exposition at Seattle, in 1909.

The annual report of the record committee, authorizing records of the past years as follows, was approved:

RECORDS ALLOWED.

900-yard run, 2:01.4, M. W. Shepard.
500-yard run, 1:01.4, M. W. Shepard.
100-yard hurdle, eight flights, first hurdle 15 yards from start, 12:1-5, J. S. Hill.
100-yard hurdle, eight flights, first hurdle 15 yards from start, 12:1-5, J. S. Hill.
100-yard hurdle, 10 flights, 12:1-5, S. C. Northridge, I. A. C.
60-yard hurdle, five flights, 3 feet 6 inches, 16:1-5, S. C. Northridge.
Pole vault for distance, 28 feet, M. J. Sheridan, New York A. C.
Throwing 16-pound hammer, 173 feet, 7 inches, M. J. McGrath, New York A. C.
Throwing 12-pound hammer, 190 feet 8 inches, L. F. Talbot.
Throwing 56-pound weight, 88 feet 8 inches, J. J. Flanagan, I. A. C.
Shot-putting by Ralph Rose, California, 8-pound, 67 feet 7 inches; 12-pound, 11½ inches; 14-pound, 61 feet 6½ inches; 15-pound, 43 feet 8½ inches; 21-pound, 49 feet 3½ inches; 25-pound, 34 feet 5½ inches; 16-pound, 49 feet 7¾ inches.

C. M. Daniels, New York A. C., was awarded swimming record for 21 yards to one mile, including 31 intermediate distances, his one-mile record being 23:40-5, with 87 turns.

Concerning the show results in New York many contrary expressions were heard and it seems to simmer down to the fact that some makers really did a good business, while others did very poorly. The total sales were far less than in last January, but about two-thirds of the Garden exhibitors got results that were surprising and gratifying in view of the financial depression.

WITH THE BOWLERS

The finals in the two-man bowling tournament were played last evening. Scores:

ASTONISHING STATISTICS
IN A. A. U. REPORT.

New York, Nov. 19.—There are some astonishing statistics in the report of the registration committee of the Amateur Athletic union of the United States, which has just been holding its annual convention here. These figures show the enormous growth of athletics in America. According to the report no less than 2,441,518 persons were engaged during the year in athletics of some form or other, and this was exclusive of swimming, wrestling, boxers, basketball players, baseball players and gymnasts. A valuation of the property owned by clubs, whose members take an active interest in track and field sports, amounted to \$24,378,125.

FARMER BURNS WINS

Wrestler Defeats Mike Dwyer the Denver Mat Artist

Denver, Nov. 18.—Farmer Burns won the wrestling match from Mike Dwyer at Denver Athletic club last night, the best two out of three falls. By winning the second fall Cornish style in quicker time than Dwyer had won the first fall, Burns won the right to name the style of the third bout and choose catch-as-catch-can. The last bout was won by Burns with a cross-lock and a half-Nelson in eight minutes flat.

OFFICERS CHOSEN.

Los Angeles, Nov. 18.—Directors of the Santa Anita racing association met in a meeting in this city today, at which the following active officers for the win-

ter meeting, scheduled to begin Thanksgiving day, were chosen: Colonel Hamilton, president; E. D. Cole, assistant judge; John Boden, handicapper; P. C. Pomeroy, clerk of the scales; Jake Holman and Dick Dwyer, alternate starters.

It is stated that E. J. Baldwin will probably be elected president of the association tomorrow. To date there have been 1,293 stake entries for 11 events at the Arcadia track.

PENNY GOSSIP.

There has been an increase of \$100 in the membership of the American Automobile association since last February. The total membership is now 13,209.

The St. Vincent college football team will be unable to play Logan next week, but Coach Walker is trying to make arrangements for a game on Christmas day.

Four classes will be represented in the inter-class football games at the U. The freshmen have 30 candidates for positions on the team and the juniors have 24. The games will begin after the close of the regular season and there is already great interest among the students.

Stanford University, Nov. 18.—D. P. Crawford, of Cupertino, Cal., was elected captain of next year's football team tonight. Crawford played tackle on the '05 varsity, and played in the series on this year's varsity. His election was unanimous.

New York, Nov. 18.—Dennis Costigan, for many years a well known figure in sporting circles, died today of consumption at the Metropolitan hospital on Blackwell's island. He was a close friend and second of Jack Dempsey.

Word has been received in this city to the effect that there is a probability of the boxing game opening again in Denver. The Colorado metropolis has been the center of a great many interesting Queensbury arguments. Sammy McClintic, manager of "Fighting Dick" Hyland, has received an offer for a match with Mugsy Shoels and has decided to accept the same.

St. Paul, Nov. 18.—President Lennan of the St. Paul baseball club, has drafted Mike Lynch, manager of the Tacoma club, and will offer him the position of manager of the St. Paul club and left field on the team.

Concerning the show results in New York many contrary expressions were heard and it seems to simmer down to the fact that some makers really did a good business, while others did very poorly. The total sales were far less than in last January, but about two-thirds of the Garden exhibitors got results that were surprising and gratifying in view of the financial depression.

Freddie Weeks and his manager have returned to Cripple Creek where they are keeping very quiet. Durand states that Weeks never got his stride in the Artell battle, but it is possible that Weeks' pace was just as usual but that he was against a man so much faster that he seemed to stand still. Freddie will keep on trying and will defeat a great many more men than will beat him.

A press room drummer at the recent show in Madison Square Garden gazed up at the ceiling and recalled how the staid good folk of a little village were roused and made to hustle by "Dr. Ox's Experiment." In Jules Verne's story of that name, he suggested that currents of pure oxygen and other gases be introduced into the building, so as to get the visitors into an enthusiastic mood and stimulate buying. An exhibitor who listened to the proposal wanted to get busy and try the idea, and he actually made a start by going to the committee, but it was too late in the day and the exhibitor will have to wait for his tryout till the next show.

Clark Griffith, the New York manager, is worried about the actions of his star players, Chase, Moriarty and Arrandale, and is now on his way to Los Angeles to give them boys some good advice. All three of these players with the outlawed California State league and unless they quit at once they are liable to be outlawed themselves and the New York team would be greatly crippled should they lose all three men at once.

Sullivan and Unholz quit their hard work today and went to the city to be satisfied with their condition for the fight at Ogden Friday evening. Sullivan has had no trouble in making the weight, in fact this morning he was 160 pounds below the required notch. The Boer also claims to be down to the mark. Unholz is full of confidence that he will score a victory over Sullivan. His count of his territory much to offset his opponent's cleverness. Sullivan says there will be nothing to it but him, so take your choice.

THE DRUCE CASE.

Transferred from the Marylebone to Clerkenwell Police Court

London, Nov. 18.—The trial of the Druce case, involving the claim to the Duke of Port's estates, was transferred from the Marylebone to the Clerkenwell police court today, and although the latter court is the center of an East End slum district, the same fashionable audience was present as attended the previous sittings. Robert C. Caldwell of New York again was in the witness box, but added little to the previous information furnished. He made the statement that the fifth Duke of Portland, wearing the whiskers in which he is said to have disguised himself as Thomas Charles Druce, was walking about Baker street in the sabbath, talking to the residents just before the coffin supposed to hold Druce's body left the premises.

The presiding magistrate, Mr. Plowden, closely questioned Caldwell regarding the reasons for the alleged mock funeral, but the witness said he was unable to enlighten him.

Miss Mary Robinson, said to be the daughter of a southern planter, and owner of the diary which figures in the case, which is alleged to have been stolen, was the next witness.

Miss Robinson testified that the diary was stolen from her in the street, Nov. 2.

Counsel for the prosecution informed the magistrate that a certified copy of the diary had been taken by counsel before the book was lost.

Continuing, Miss Robinson said she was introduced to T. C. Druce, whom she also knew as Welbeck and later as the Duke of Portland.

The case was again adjourned.

GOLDFIELD SMELTERS
RAISE RATE ON ORES.

Goldfield, Nev., Nov. 18.—The smelters of the Goldfield district have notified the mine owners that the smelters have again raised the rate on Goldfield ores, this being the second time within 10 days. The smelters are in no position to take ore and pay for it, so they are trying to force the shipments by making the rate prohibitive. The Consolidated let out all men today who were working on ore in the Mohawk, as they will not pay the new rate. It is believed that the rate on Goldfield ores are adjusted the smelters will return to their old rate and the mines resume shipping. The new rate, it is thought, will work a serious injury to some, many of whom, although in ore, will have to close down for want of a market.

J. H. MacKenzie, the newly-elected director of the Consolidated company, arrived this morning and, at the meeting of the new directorate today, was elected general manager for the company.

The Question of Bread and Butter

Physical fitness tells in the work of store, office or factory. The fitter you feel, the more and better work you can accomplish. It pays to keep well. Pays in bodily comfort and shows in the amount put in your pay envelope. Healthy people can earn more than sickly people.

Sickness not only interferes with work, but costs many men and women their positions. Employers are soon out of patience with employees who are frequently kept from their posts by sickness. And it is the little ills that are the biggest time-stealers and wage-losers. Beecham's Pills are a great boon to men and women who have to earn their living. They are convenient to take, act promptly and cause no discomfort. Use them to relieve sudden attacks of indigestion; take them for sick headache, biliousness and constipation. Take them when the blood is out of order and whenever you feel out of sorts. To keep stomach, liver and bowels in good working condition, to prevent sickness and add to your earnings, it is only necessary to make timely use of
